

11 day/10 nights, fish collecting and eco tour

- Day 1. (½ day)- Airport pick up and introduction to GoWildPeru guides and staff. A guided visit to the town's market place and town centre. Welcome dinner.
- Day 2. Fish collecting locally, area 1.
- Day 3. Start of a three-day collecting trip to the home of *Corydoras weitzmani*, sampling various sites en-route.
- Day 4. Collecting *C. Weitzmani*, this may involve several locations including some that have never before been sampled.
- A further option is available to take a day tour up into the high Andes, the home of alpaca, and where you will see fantastic scenery, including close up views of the glacier.
- Day 5. Return to Puerto Maldonado, collecting at the locations sampled on the outward journey.
- Day 6. Rest day – free time after preparations for scientific export and water changes, visit town centre.
- Day 7. Fish collecting locally, area 2.
- Day 8. Fish collecting locally, area 3.
- Day 9. Fish collecting locally, area 4.
- Day 10. Fish collecting locally, area 5. Preparing fish for transporting, or shipping.
- Day 11. (½ day)- Departure.

Prices start from \$2195.00 per person for bed, meals, transport, guiding fees and housekeeper services.

Note: At the end of each collecting trip, all fish collected will be checked, placed in quarantine, (treated if necessary), and recorded. Equipment is also checked, repaired if needed and stored. This is our standard practice and takes place before any other activity.

Days 1 & 8 are, because of flight schedules actually half days. Most flights in and out of Puerto Maldonado are around the middle of the day.

Tour packages can be tailored to suit individual or group requirements.
